

SOLID STATE AREA LIGHTING

B2300 SERIES-LED

S P E C I F I C A T I O N S

HOUSING and RISER

Durable, corrosion resistant cast aluminum (A356 alloy; < 0.2% Cu) base, riser and top cap, minimum .250" wall thickness. All visible welds are blended, all exposed hardware is stainless steel.

LED POWER ARRAY

Three-dimensional array consisting of 6 individual LED tubes fastened to a retaining plate equally spaced to provide 360° of even illumination output. Each LED tube consists of a circuit board populated with a multiple of LED's which is fastened to a radial aluminum heat sink. A white polycarbonate lens and end caps protect each LED tube's internal components and provides diffusion to prevent shadowing and striations.

RADIAL LED MODULE

LED'S are mounted to a circular heatsink in a radial array. The radial LED module is concealed in the cap of the bollard. LED's are not directly visible from angles above 90°.

INTERNAL LOUVER (IL)

A specular louver stack conceals the LED Power Array (with opal diffuse lens) module and provides uplight and glare control through the external clear injection molded polycarbonate lens.

OPAL LENS (WP)

Injection molded opal polycarbonate lens protects the LED Power Array Module (with opal diffuse lenses) and provides uniform illumination.

CAST LOUVER (CL)

Cast aluminum (A356 alloy, <0.2%Cu) louver stack protects the LED Power Array Module (with opal diffuse lenses). Horizontal louvers create a 30° cut-off angle and provide 360° of downlight.

LED DRIVER

UL and cUL recognized High Power Factor, Constant Current LED drivers operate on input voltages from 120-277VAC, 50/60hz and is mechanically fastened to a retaining bracket. 347V and 480V options may utilize a step down transformer to the LED driver. Main power quick disconnect provided. Driver has a minimum 4KV of internal surge protection. Consult factory for other voltages. Dimming and High-Low Driver options available. 10KV & 20KV Surge Protector optional.

FINISH

Electrostatically applied TGIC Polyester Powder Coat on substrate prepared with 20 PSI power wash at 140°F. Four step media blast and iron phosphate pretreatment for protection and paint adhesion. 400°F bake for maximum hardness and durability.

B2300 SERIES-LED

SPECIFICATIONS

GROUND MOUNTING

*When mounting in soil, anchor bolt fasteners and other hardware must be protected from soil by grouting.

LED MODULE

B23EL-CAP-LED

VPA - Vertical Array™
Available in:
36LED, 24LED and 12LED
(Used with **-IL**, **-CL** and **WA** optics)

Radial LED Module
Available in:
18LED Module only
(Used with **-PR** optics)

Spec/Order Example: B23EL-CAP-VPA-SYM/12LED208/RAL-9005-T

ACCESSORIES

MBS
MAILBOX
SINGLE

Mailboxes may be mounted post top or side mount.

MBD
MAILBOX
DOUBLE

Mailboxes are of durable, corrosion resistant, cast aluminum (A356 alloy; < .02% copper) and painted to match the decorative bollard.

Mailboxes include nonlocking pull latch and cast flag.

DUP or GFI
DUPLX OR G.F.I.
RECEPTACLE
WITH COVER

Specify Duplex or GFCI receptacle to mount in the outlet provision. Standard cover supplied.

BEB
BOLLARD
EYE BOLT

Eyebolts for barrier chain or cord. Specify eyebolt(s) height and location.
