

# SOLID STATE AREA LIGHTING

## B300 SERIES-LED

### S P E C I F I C A T I O N S

#### HOUSING and RISER

Durable, corrosion resistant cast aluminum (A356 alloy; < 0.2% Cu) base, unlit riser and top cap, minimum .250" wall thickness. Lit riser is extruded, minimum .188" wall thickness. All visible welds are blended, all exposed hardware is stainless steel.

#### LED POWER ARRAY

Three-dimensional array consisting of 6 individual LED tubes fastened to a retaining plate equally spaced to provide 360° of even illumination output. Each LED tube consists of a circuit board populated with a multiple of LED's which is fastened to a radial aluminum heat sink. A white polycarbonate lens and end caps protect each LED tube's internal components and provides diffusion to prevent shadowing and striations.

#### OPAL LENS (WA)

Opal acrylic lens is located at the recess of the vertical flutes, protects the LED Module and provides uniform, diffuse illumination.

#### LED DRIVER

UL and cUL recognized High Power Factor, Constant Current LED drivers operate on input voltages from 120-277VAC, 50/60hz and is mechanically fastened to a retaining bracket. 347V option may utilize a step down transformer to the LED driver. Driver. Main power quick disconnect provided. Driver has a minimum 4KV of internal surge protection. Consult factory for other voltages. Dimming and High-Low Driver options available. 10KV & 20KV Surge Protector optional.

#### LED EMITTERS

High Output LED's are driven at 350mA for nominal 1 Watt output each. 70CRI Minimum. LED's are available in standard Neutral White (4000K), or optional Cool White (5000K) or Warm White (3000K). Consult Factory for other LED options.

#### FINISH

Electrostatically applied TGIC Polyester Powder Coat on substrate prepared with 20 PSI power wash at 140°F. Four step media blast and iron phosphate pretreatment for protection and paint adhesion. 400°F bake for maximum hardness and durability.

### GROUND MOUNTING

\*When mounting in soil, anchor bolt fasteners and other hardware must be protected from soil by grouting.

### LED MODULE

**B3EL-CAP-LED**  
**VERTICAL POWER ARRAY™**  
 Available in:  
 36 LED & 24 LED

VPA - Vertical Array

Spec/Order Example: B3EL-CAP-VPA-SYM/24LED480/RAL-8019-T

### ACCESSORIES

Mailboxes may be mounted post top or side mount.

Mailboxes are of durable, corrosion resistant, cast aluminum (A356 alloy; < .02% copper) and painted to match the decorative bollard.

Mailboxes include nonlocking pull latch and cast flag.

Specify Duplex or GFCI receptacle to mount in the outlet provision. Standard cover supplied. nd location.

Eyebolts for barrier chain or cord. Specify eyebolt(s) height and location.

Unlit Example: B3C-CAP/RAL-6005-S
